2023 Catalog of 5-Star Attractions!

Celebrating 39 years of success

In 1983 David and Dianne Linderman had to find a way to support a five-acre wildlife park with over 200 animals and 20 troubled teenagers. The wildlife park, located in Oregon, was given to them by a woman with terminal cancer who heard about the good work that David and Dianne were doing at a dude ranch for troubled teens. She knocked on their door and asked if they had it in their hearts to take over her life's work, a wildlife park with lions, tigers and bears, and also cougars, monkeys and hundreds of other animals. David and Dianne both thought, "Nothing ventured nothing gained." What they did not know was how rundown and badly managed this park was.

David & Dianne Linderman

They moved there with all of their troubled teenagers and began a new path in life. What they learned there was so amazing; the animals had a miraculous effect on the teens. The needs of the animals out-weighed their own troubles and they not only thrived, but found true love! They learned to be self-less! They came to understand what hard work was and evolved a real work ethic! Between middle of the night bottle feedings, the medical needs of the animals, and cleaning cages and pens, these kids turned into amazing, responsible, thoughtful, entrepreneurial people.

Pamela Jaeger

39 years later, many of these same troubled teenagers are partners in the Great American Entertainment Co. and are raising their own families as part of this company. Someday their kids will take over and continue our quest of sharing the greatest experience in life, working with agriculture in its truest form. The Great American Entertainment Co. has grown into an award-winning, #1 Ag-related entertainment company in the country.

With the Great American Petting Farm, Great American Pony Ride, Porky's Express Pig Train, Ag-Ventureland, Cowboy Boot Camp, Everything That Matters in the Kitchen Cooking Show, GASCAR Crazy Animal Races, Farmyard Follies, Vintage America, and Kids Can Cook—Great American is unstoppable!!

Our quest is to always bring the highest quality, educational, clean, beautifully presented, professional attractions to your event. Life is a story, and ours will continue for long as America allows us to share the love of animals, the need to keep agriculture alive, and the inspiration to learn about farming and entrepreneurship. We look forward to partnering with the greatest industry on earth—The Great American Fair, Event, and Rodeo industry. See you soon!

Over the last few generations, America has become a fast food nation where kids are no longer exposed to simple, healthy cooking. Seeing the need to bring families back to the kitchen table, Celebrity Chef Dianne Linderman also warmly known as “the kid magnet,” brings her 30 years of expertise in working with kids to her new show, “Kids Can Cook.” “Kids Can Cook” is not only a show, but an interactive program that introduces kids to how fun and simple it is to create delicious, healthy farm fresh recipes.

Dianne's Famous Crustless Quiche

4 **EGGS**, beaten

2 cups **HEAVY CREAM**

1½ cups **SAUTEED VEGGIES**, any kind you would like to add--my favorites are spinach, mushroom, tomato and chopped ham OR just basil and tomato

2 cups **CHEDDAR CHEESE** or your choice, grated

SALT & PEPPER, to taste

SPRAY COCONUT OIL

Preheat oven to 400°.

Beat eggs, then stir in cream.

Spray coconut oil into baking dish, then add cheese, salt & pepper.

Cover with scrambled egg mixture leaving room at the top for the quiche to puff up.

Bake for approximately 45 minutes to an hour, checking at 35 minutes. You can tell the quiche is done when it does not appear runny and does not jiggle.

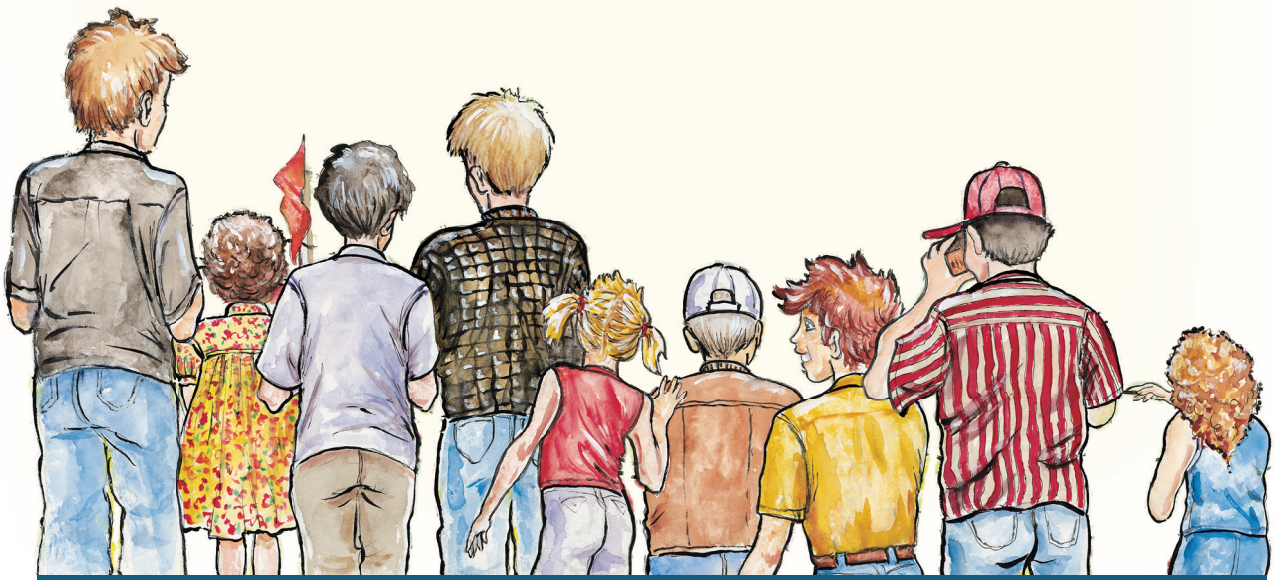

Optional: Serve with a big green salad or use this as a breakfast entrée.
